

STYLING

Redeem styling provides wardrobe styling and personal shopping services to career oriented and professional women by helping them refine their styles, revamp their wardrobes and gain confidence in the process. This is achieved by incorporating current and diverse pieces into clients' wardrobes and customization of a style that fits their needs, lifestyle and comfort packages and web page editors now use

Services

Personal styling

We will help you put together items to create perfect outfits for everyday use and for special occasions. We will create a Personalised Look Book by taking pictures of all the outfits created during the session to make your dressing easy and combat those I don't have anything to wear moments. You can expect to have more than 20 different outfits/looks depending on the size of your wardrobe.

Wardrobe audits

We will help you organise your closet to have a fully functional wardrobe by removing all the clutter, evaluating every piece, examining your wardrobe needs and streamlining it to capture your unique style with the aim of creating seasonal closet organised by color.

Special Event Styling

We will help you find the best and suitable outfits for any special occasion including business functions and meetings, weddings, black-tie events or party.

Personal shopping

We offer personalised shopping to suit your own style and budget. We advise on where to shop, what to shop for and how to shop in order to build a stylish and functional wardrobe. The pieces that we shop for you and or with you will be incorporated into your current wardrobe to give you variety.

"Personal styling and shopping made easy and affordable"
